

# Design Your Own Line

Tired of wearing the same trendy scents that everyone else already has? Design your own line of specialty soaps and bath products at The Enterprising Kitchen! You and eleven friends can get creative for an evening or weekend at TEK, producing personalized scents and packaging for three custom items. Enjoy wine and hors d'oeuvres by Limelight during your very own trend-setting Design Party. At the end of the event, you and your friends will take home a souvenir "Soap on a Rope" based on TEK's most popular scents.

Your products will be available for special order in 2010.

The host(ess) receives two complimentary sets of their new product line.

## Bubble Bash
